Styling Tips

Haircut – One of the best tips for healthy hair is to ensure your hair looks great by getting regular hair-cuts.

Work with Nature – Everyone has different hair. It might be that your hair is fine, thick, wavy, straight, and so on. To look its best, you need to work with your natural hair

Use Products Wisely – Go easy on the products. If you apply gel to your hair, rather than fill the palms of your hands with the product, use a small, 50p-size portion.

After you shampoo your hair, do not use products until the hair is no longer wet, but just damp.

Roots – The roots of your hair can be damaged in a number of ways. Therefore, before you start blow-drying or curling, make sure you take care of the roots.

Loyalty Card Scheme

You may want to take one of our loyalty cards that entitles you to a free styling product after every fifth hair cut.

You will also receive a copy of our monthly Loyalty card only, newsletters and some fabulous free samples to try out

Even more reasons to come to DK One for all your styling needs
